

Service Department Update

Service Director

Andy Bashore

February 25th, 2025

Street Department:

The crews are currently working on pothole and brick repairs throughout the city.

Water and Sewer Department:

The water and sewer crews are working on MTU replacements and working on the annual catch basin cleaning program.

Urban Forestry/Grounds Maintenance

The crews are performing tree maintenance and groundwork throughout the city. The crews are working on stump grinding.

2025 Street Project

The streets have been evaluated, and the project will go out for bid in early March.

2025 Sidewalk project

The project will go out to bid late next week.

Stanbery Project

The water main line portion of the project is complete. The street paving will begin in the spring.

Commonwealth project

The underground utility work is complete. The asphalt and concrete have been removed, and the area has been filled with topsoil and seeded. The sidewalk and curb work will be installed in the spring.

North Columbia Project

The contract has been approved and will be awarded next week. The project will start in early April.

A few Service Dept. Highlights-

The 2024 leaf season was completed in late January.

Black History Month banners were installed in late January.

The crews have been in 7 times after hours for snow and ice removal.
