

**PUBLIC NOTICE
CITY OF BEXLEY
ARCHITECTURAL REVIEW BOARD**

The Bexley Architectural Review Board (ARB) will hold a Public Meeting on the following case on **Thursday, May 14, 2020 at 6:00 PM**, in City Council Chambers, Bexley City Hall, 2242 East Main Street, Bexley, Ohio.

The APPLICANT or REPRESENTATIVE must be present*at the Public Hearing. The Board may dismiss, without hearing, an application if the applicant or authorized representative is not in attendance. The Board may move to consider the application in those circumstances where dismissal without hearing would constitute a hardship on the adjoining property owners or other interested persons.

Application No.: ARB-20-26

Applicant: 3 Pillar Homes

Owner: Joe Chay

Address: 2730 Broad St.

ARB Request: The applicant is seeking architectural review and approval, to allow a new 2-story single family dwelling in the vacant lot on the North side of Broad Street between 2720 E. Broad Street and 2738 E. Broad Street.

A copy of this application will be available on our website 1 week prior to the meeting.

***PLEASE NOTE:** Due to the COVID-19 we ask that you check the City Website: www.bexley.org for any special instruction in the event we need have applicants and neighbors with standing to attend a virtual meeting. Any questions regarding an application should be emailed to Kathy Rose at: krose@bexley.org and write **ARB** or **BZAP** in the subject line to prioritize it and insure that it is addressed prior to noon on the day of the meeting. Any other questions please call the Bexley Building Department at (614)559-4240.

Mailed by: 04-30-2020

*(ARB) Architectural Review Board Application - Major Review (for Additions to Principal structures (including porches) , Additions to Accessory structures, and New Principal Structures that DO NOT REQUIRE A VARIANCE. (You must proceed to the BZAP application if you wish to request a variance from the Zoning Code) ARB meets on the 2nd Thursday of the month (except December) applications are due 4 weeks prior. · Add to a project

ENGINEERED TO IMPRESS.

With over 20 years of successful performance, it's easy to see why the LP® SmartSide® brand is one of the fastest-growing brands of siding materials in the United States.

A PIONEER OF CHANGE

LP has redefined traditional building materials with treated engineered wood products that are designed to offer game-changing durability, beauty and workability. LP is a building industry leader in a category that is shaping the way homes, outdoor building structures, and light commercial properties are being built.

See the innovation that goes into making LP SmartSide products at [YouTube.com/LPSmartSide](https://www.youtube.com/LPSmartSide).

Featured: LP SmartSide Lap, Panel & Trim (Board & Batten), Trim & Fascia

BECAUSE STRENGTH IS MAKE OR BREAK

A NATURAL DEFENSE AGAINST NATURE

All LP® SmartSide® products are treated to the core through our proprietary SmartGuard® process. With four components of protection, the SmartGuard process adds strength and helps LP SmartSide products withstand impacts, freeze/thaw cycles, high humidity, fungal decay and more.

See more about how LP SmartSide products are made at [YouTube.com/LPSmartSide](https://www.youtube.com/LPSmartSide).

FOUR COMPONENTS OF PROTECTION

LP's proprietary SmartGuard® manufacturing process ensures that every LP SmartSide Trim & Siding product is treated with an advanced formula of adhesive resins, water-resistant waxes and zinc borate, after which a water-resistant, resin-saturated overlay is bonded to the product. The result: four components of protection against water damage, termites and fungal decay.

RESINS

WAXES

ZINC

OVERLAY

OUTSTANDING IMPACT RESISTANCE

Testing shows that LP SmartSide strand products resist impact better than vinyl and fiber cement siding, which means they can stand up better against everything from everyday bumps to airborne storm debris. And because it doesn't break as easily as fiber cement siding, LP SmartSide strand siding is also easier to handle and install, and results in less waste.

HAIL AND WIND RESISTANCE

Third-party test results demonstrate that LP SmartSide lap siding resisted hail damage better than fiber cement and vinyl. In fact, the LP SmartSide warranty covers impacts from hail up to 1.75" in diameter. LP SmartSide lap siding is also designed to withstand tough storms with wind gusts of up to 200 miles per hour. Refer to ESR-1301, Table 2B, Lap Siding.

LP SmartSide product testing in Hilo, Hawaii

Untreated wood (left), LP SmartSide (right)

RESISTANCE TO FUNGAL DECAY AND TERMITES

Since 1996, LP SmartSide strand substrate siding has undergone brutal testing in Hilo, Hawaii. An average temperature of more than 70 degrees, high levels of humidity, and almost 170 inches of annual rainfall make Hilo's climate the perfect breeding ground for termites, moisture and fungal decay. Yet our Exterior Exposure Program continues to validate that LP SmartSide siding performs over time.

BACKED BY STRONG WARRANTIES

LP has your back with an industry-leading, transferable limited warranty for LP® SmartSide® products: a 5-year 100% labor and material replacement warranty with a 50-year prorated limited warranty. LP® SmartSide® ExpertFinish® Trim & Siding products include an additional 15-year finish warranty.

For complete warranty details visit [LPCorp.com](https://www.LPCorp.com)

WORKS THE WAY WOOD IS SUPPOSED TO

LP® SmartSide® treated engineered wood siding cuts out the time you spend dealing with warped and split pieces when properly stored and applied. Virtually every piece leaves the mill straight and ready to use. Plus, you'll get lengths up to 16', which may mean fewer seams and less waste to haul off the site.

MAKES BUILDING EASIER, FASTER, MORE EFFICIENT

LP SmartSide Trim & Siding cuts with standard woodworking tools, unlike fiber cement cladding that recommends expensive diamond blades. LP SmartSide products weigh less, resist breakage during handling, and make installation more efficient. Plus, all LP SmartSide products come pre-primed and ready to paint to help you save time.

LP HAS WORKABILITY NAILED

- Works and cuts like traditional wood
- Requires fewer tools
- Weighs less, easier to carry, less breakage than fiber cement
- Longer lengths may mean fewer seams and less waste

Watch our **Building Science** videos to see how LP makes treated engineered wood products last longer at [YouTube.com/LPSmartSide](https://www.youtube.com/LPSmartSide).

GROW WITH US

A SMART CHOICE FOR OUR PLANET

LP® SmartSide® Trim & Siding products are must-have materials to help builders qualify for green building programs. Plus, many homeowners and building owners are demanding sustainable products that have minimal impact on our environment.

We're not just building for the future; we're helping to protect it by using Sustainable Forestry Initiative® (SFI) certified forest management and fiber sourcing systems to help ensure that our wood comes from well-managed forests.

NATURALLY SUSTAINABLE

The LP SmartSide manufacturing process begins with wood, a renewable resource, grown and gathered under strict SFI standards. We target fast-growing trees and use 99% of the log for either the product or the fuel to make it. Plus, all binding agents and resins are low-emitting.

RESPONSIBLY MADE WITH WOOD

- Responsibly made with a renewable resource—wood
- 99% of the log is used
- Qualifies for green building programs

Learn more about LP's environmental programs at [LPCorp.com](https://www.lpcorp.com).

ADVANCED DURABILITY FOR LONGER LASTING BEAUTY®

Siding plays a big role in a home's curb appeal. That's why LP® SmartSide® Trim & Siding is built to last and designed to make any home's design vision come to life. Because of its engineered wood strand technology and variety of textures, styles and colors, LP SmartSide products elevate any structure, from traditional homes to modern masterpieces. LP SmartSide products are also available in ExpertFinish® color to add another element of versatile design to your projects.

Specifications: LP® SmartSide® Lap Siding

CEDAR TEXTURE LAP

THE BOLD LOOK OF CEDAR WITHOUT MANY OF THE WORRIES

- One of the most durable lap siding options on the market today
- 16’ length can result in faster installation
- May create fewer seams than traditional 12’ siding
- Pre-primed for exceptional paint adhesion
- Self-aligning SmartLock™ option eliminates the need to measure and set lap reveal; eliminating this step in the process is likely to speed up the installation process
- APA-certified lap siding
- Treated engineered wood strand substrate

CEDAR TEXTURE SHAKES

THE LUXURIOUS APPEAL OF CEDAR

- The look of traditional cedar with easier maintenance over time
- Staggered edges offer a lively, textured effect
- Can be used on all exterior walls or as a decorative accent
- Shiplap ends for seamless appearance
- Reversible staggered or straight edge offers exceptional design versatility
- Treated engineered wood strand substrate

CEDAR TEXTURE SHAKES

DESCRIPTION	LENGTH	ACTUAL WIDTH	MINIMUM THICKNESS	PID NUMBER	WEIGHT
Cedar Texture Shakes	4ft. (48.63 in.)(1.2 m)	11.625 in. (29.5 cm)	0.315 in. (8 mm)	42092	2 PSF

CEDAR TEXTURE PANEL

RATED FOR STRUCTURAL USE BY APA®

- Shiplap edges with advanced bead system for easier alignment
- Pre-primed for exceptional paint adhesion
- Significantly lighter than comparable fiber cement panel
- Strong enough to be nailed directly to stud, making additional sheathing unnecessary in many applications
- Eliminates need for additional bracing on load-bearing walls
- Ideal exterior for homes in areas of high winds or seismic activity
- Treated engineered wood strand substrate

START STRONG WITH LP BUILDING SOLUTIONS

Inventing a Better Tomorrow with LP

LP's mission is to engineer extraordinary solutions for everyday problems. With a united spirit of discovery, LP is forging ahead with innovative ideas to create new products that offer exceptional performance for today's building challenges.

LP WeatherLogic® Air & Water Barrier

LP WeatherLogic Air & Water Barrier provides moisture management technology for a better build. To protect against air and water during construction and for years to come, LP WeatherLogic Air & Water Barrier creates a tight building envelope, installs easily, and keeps the jobsite clean.

LP® TechShield® Radiant Barrier

The original, #1 brand of radiant barrier, LP TechShield Radiant Barrier may reduce monthly cooling costs by blocking up to 97% of the radiant heat in the panel from emitting into a home's attic, lowering attic temperatures by up to 30° F.

LP Legacy® Premium Sub-Flooring

LP Legacy Premium Sub-Flooring uses Gorilla Glue Technology® for one of the strongest, stiffest sub-floors. The resin in Gorilla Glue Technology binds wood fibers at the molecular level for premium performance.

LP® FlameBlock® Fire-Rated Sheathing

LP FlameBlock Fire-Rated Sheathing has structural design values equal to standard sheathing in the same performance category. ICC-certified (ESR-1365) per AC264 with a Class A and 30-minute Flame Spread Rating (ASTM E84), it combines fire resistance and impressive structural performance in a single panel.

For more information, visit [LPCorp.com/SmartSide](https://www.LPCorp.com/SmartSide)

 **WARNING:** Drilling, sawing, sanding or machining wood products can expose you to wood dust, a substance known to the State of California to cause cancer. Avoid inhaling wood dust or use a dust mask or other safeguards for personal protection. For more information go to www.P65Warnings.ca.gov/wood.

Builders Vinyl Window & Patio Door Features

Double-Hung | Single-Hung | Sliding | Fixed, Radius & Geometric
Sliding | Patio Doors

BASICS DONE BETTER

We understand the basics and we do them right. That's why the window choices you make today will still be satisfying years from now. JELD-WEN Builders Vinyl windows and patio doors are durable, energy efficient and attractive. They're made of high-quality extruded vinyl that resists fading and won't chip or peel, so they're virtually maintenance-free.

Also, most JELD-WEN windows and patio doors with Low-E glass are ENERGY STAR® qualified to provide increased comfort and decreased household energy bills.

Each Builders Vinyl window and patio door is backed by an industry-leading lifetime warranty that is transferable for 10 years. To view the complete warranty, see page 33.

This catalog includes comprehensive information about features and specifications. For installation and care and maintenance instructions, visit www.jeld-wen.com/resources.

LIFETIME
LIMITED
WARRANTY

Each one of our windows and patio doors is built to last. We prove this by supporting our Builders Vinyl product with our lifetime limited warranty.

The WEN-LOCK is our exclusive automatic locking system, which is available on our single-hung and sliding windows. It features a slim profile that's easy to engage, as well as a tamper-resistant design. In fact, this lock has passed all forced-entry resistance tests. It also has a visible latch indicator (VLI) that lets you know if the window is locked. The VLI can be seen only from indoors.

ADA-compliant WEN-LOCK option also available.

Optional Secondary Stops**

Popular flip-out vent stops limit sash opening to 4 inches, providing fractional ventilation on double-hung, single-hung and sliding windows.

A nylon lever and housing allow quick and easy release when the vent stop flips open. When not needed the lever closes easily with the push of a finger.

**Actual colors may vary from the samples displayed and are subject to regional availability. Check with your dealer for details.*

***Secondary stops are not a locking feature. Note: All options are subject to regional availability.*

PERFORMANCE GLASS OPTIONS

Neat® Glass

With this glass option you gain natural cleaning convenience. By harnessing the sun's UV rays (even when the sky is cloudy) to loosen dirt from the glass, rainwater can easily rinse away grime. No manual activation is required. For more information, visit www.jeld-wen.com.

Tempered Glass

When glass is heat-treated during manufacturing, it is provided with extra strength, enabling it to withstand abnormal force or pressure on its surface—it will not break into sharp pieces. Local codes often require tempered glass to be used in all windows that are close to the floor or near doors, bathtubs or showers.

Laminated Glass

Laminated glass consists of panes of glass with an invisible interlayer, sandwiched together to create an extremely sturdy glass unit. This provides increased protection for home safety and from incidental impact; it also provides an improved barrier against sound and harmful UV rays.

ENERGY STAR®

Many JELD-WEN windows and doors are ENERGY STAR® qualified. Homeowners can save energy – and money – by replacing old windows with ENERGY STAR qualified windows and pay a 7-15 percent lower household energy bill. Lower energy consumption also reduces greenhouse gas emissions from power plants and shrinks a house's carbon footprint. JELD-WEN has been an ENERGY STAR partner since 1998.

Sound Performance

Your home should be a place where you can escape the sometimes hectic and noisy environments of modern living. For that reason, sound reduction is a major consideration when we design our products.

JELD-WEN vinyl windows are a vast improvement over single-pane windows that are found in many homes today.

The same qualities that make our products energy efficient, such as frame designs, enhanced weatherstripping and glazing, make them sound efficient as well.

ENERGY SAVING GLASS OPTIONS

Clear Insulating Glass

This glass consists of a sealed airspace sandwiched between two panes of glass. The perimeter of the unit is also sealed. This option offers maximum visible light transmittance and superb energy efficiency in most climates.

Intercept®
Spacer

Energy Saver® Plus—REDUCE HEAT LOSS UP TO 40%

The best value in insulating glass, Energy Saver Plus includes, argon gas for improved thermal performance and LoE³-366 glass. With triple layers of Low-E coating, LoE³-366 helps you save energy through improved thermal performance, reduces solar heat gain and helps protect interior furnishings from fading. Energy Saver Plus reduces heat loss by 40% compared to clear insulating glass.

Low-E & LoE³-366 Insulating Glass

High-performance Low-E insulating glass comes standard and helps lower energy costs, allows homes to stay cooler in the summer and warmer in the winter, prevents fading of interior furnishings, and reduces condensation. It also delivers greater visible light transmittance than tinted glass. We also offer optional LoE³-366, which provides even more protection against heat loss and fading, as well as greater energy savings.

Most windows and patio doors with Low-E glass are ENERGY STAR® qualified. ENERGY STAR products help Americans save energy, save money and reduce their carbon footprints. ENERGY STAR criteria for windows are based on the U-factor and Solar Heat Gain Coefficient (SHGC) combinations that provide significant energy efficiency for a given climate zone. It's easy! Just tell your JELD-WEN dealer you want JELD-WEN windows that are ENERGY STAR qualified for your climate zone.

For more information, visit www.jeld-wen.com/energyefficiency.

Intercept®
Spacer

Energy Saver®—REDUCE HEAT LOSS UP TO 30%

Offering the most cost-efficient energy upgrade, the Energy Saver package includes upgrades from clear to Low-E glass and argon gas for improved thermal performance. Energy Saver reduces heat loss by 30% compared to clear insulating glass.

REDUCE GLARE, ENSURE YOUR PRIVACY

Textured Glass*

Let light in while maintaining privacy with textured glass. We offer a wide range of textures to meet your aesthetic preferences. Four of our most popular choices are shown below.

Glue Chip

Obscure

Reed

Rain

**Textures shown may not match exact finish*

Tinted Glass

Tinted glass reduces glare, and is ideal for areas that get a lot of direct sunlight in the summer. Below are our most popular options.

Gray

Bronze

Coated Glass: Low-E and LoE³-366 Insulated Glass

Our standard high-performance Low-E insulated glass lowers energy costs, helps homes stay cooler in the summer and warmer in the winter, prevents fading of interior furnishings, and reduces condensation. We also offer optional LoE³-366, which provides more protection against solar heat gain and fading, as well as greater energy savings.

Low-E

LoE³-366

WINDOW OPENING CONTROL DEVICE

JELD-WEN® WOCD Meets ASTM F2090 -10 Standard

Windows add so much to our daily lives - daylight, ventilation and views. They can also be necessary for emergency escape and rescue, so the building codes in your area may require certain windows to fully open. This means homeowners should take measures to prevent window falls. Factory-installed Window Opening Control Devices (WOCD) from JELD-WEN are designed to meet the ASTM F2090-10 standard intended to help prevent accidental falls from windows by children five years of age and younger. A WOCD automatically limits the sash opening to less than 4 inches, unless it is deliberately disengaged, allowing the sash to fully open. The streamlined design of the JELD-WEN WOCD won't obstruct views and preserves the beautiful appearance of your windows, unlike many after-market window guards. Factory-installed WOCDs can be ordered on the double-hung, single-hung, sliding and casement windows.

Double-Hung and Single-Hung WOCD

Window in closed position

Interior View. WOCD limits the sash opening to less than 4 inches

Features & Benefits

- » Streamlined design won't obstruct views like many after-market options
- » Automatically limits sash opening to less than 4 inches
- » Manual override for full operation and for emergency escape and rescue
- » Device automatically resets by closing the window
- » Meets the ASTM F2090-10 standard
- » Potential alternative to minimum sill height requirement (consult local building codes)

DECORATIVE GRILLES

Grilles Between the Glass (GBG)

With grilles between the glass, you'll enjoy the look of divided lites without any upkeep because they are placed between the two panes of insulating glass. Available in contour or flat in any of the sizes shown below.

Simulated Divided Lites (SDL)

For a true "paned" window look, our simulated divided lites feature bars that are permanently adhered to both the interior and exterior glass; an optional shadow bar between the panes of glass is also available. Simulated divided lites are available in 7/8" contour slim profile.

Contour (Actual Size)

Flat (Actual Size)

For life's mishaps, JELD-WEN has you covered.

Accidental Glass Breakage: On our Bravo, Primo and Ipex Replacement window and patio door product lines, and on any other vinyl products ordered with the "RS" glass package, our standard component warranty (Owner-Occupied or Commercial) will extend to accidental glass breakage.

This coverage does not apply to damage attributable to acts of nature (e.g. fire, hurricane, etc.), civil disorder, building settling, structural failures of walls or foundations or improper installation, construction job-site mishaps, storage, or handling.

Special glazings and ImpactGard® glass are not covered by this glass breakage warranty.

JELD-WEN® VINYL WINDOW & PATIO DOOR LIMITED WARRANTY

OUR WARRANTY TO YOU...

JELD-WEN® Products¹ are designed to create lasting value for your home. This warranty is effective for all JELD-WEN vinyl Products (except United Collection products) manufactured on or after **July 1, 2010** for use in the United States and Canada. Any previous warranties will continue to apply to products manufactured by JELD-WEN prior to this date. For additional information, including care and maintenance instructions, installation instructions, and previous warranties, refer to www.jeld-wen.com or www.jeld-wen.ca.

What this warranty COVERS

Except as set forth in the Special Coverages section below, we warrant that if your JELD-WEN Product exhibits a defect in material or workmanship within the time periods from the date of manufacture as specified below, we will, at our option, repair, replace or refund the purchase price of the Product or component part. Skilled labor² (where deemed necessary by us) to repair or replace any component is provided for **two (2)** years from the date of manufacture.

Owner-Occupied Single-Family Residence

Lifetime Warranty

We warrant our Products to the original owner of the owner-occupied single-family residence in which they are initially installed **for as long as you own and occupy your residence**.

Transferability

The Owner-Occupied Single-Family Residence warranty is transferable as follows. In the event you sell your residence or it becomes occupied by other than the original owner, the warranty is **ten (10)** years from the date of manufacture.

Commercial Ten Year Warranty

(Other than Owner-Occupied Single-Family Residence)

We warrant our Products for a period of **ten (10)** years from the date of manufacture.

Transferability

The Commercial warranty is transferable as follows. In the event you sell the building, this warranty is transferable to subsequent owners.

Special Coverages (Applies to both Owner-Occupied and Commercial)

The following special coverages include **free** replacement parts.

ImpactGard® Glass: We warrant each ImpactGard glass unit for **ten (10)** years.

Special Glazings (including laminate glass units other than ImpactGard): We warrant special glazings (including glass options not listed in our product literature e.g., leaded or decorative glass) for **five (5)** years.

Blinds/Shades Between the Glass: We warrant the insulated glass unit (including the seal), the external control mechanism, and the operation of the shade/blind for **ten (10)** years.

Triple-Glazed Products: We warrant triple-glazed insulated glass units for **twenty (20)** years.

Spontaneous Glass Breakage: We warrant sealed glass units installed in windows and patio doors (excluding laminated glass, and special glazings) for spontaneous breakage for **one (1)** year (to include free replacement glass and skilled labor² necessary to replace the glass for **one (1)** year. Spontaneous breakage occurs when the glass develops a crack without sign of impact.

Retractable Screens: We warrant retractable roll screens for **five (5)** years.

Colored Exterior and Laminated Interior: We warrant that our factory-applied painted exterior color and factory-applied laminate interior finishes will not peel, blister, or flake for **ten (10)** years. Our applied exterior color will not exhibit excessive color change³ for **ten (10)** years. Note: this coverage does not extend to discoloration, polish, surface damage, or alteration caused by the use of natural or chemical solvents or an environmental factor causing such damage.

Accidental Screen Damage: On our Bravo, Primo and Ipex Replacement window and patio door product lines, our standard component warranty (Owner-Occupied or Commercial) will extend to screen damage unless the damage is attributable to acts of nature (e.g. fire, hurricane, etc.), civil disorder, building settling, structural failures of walls or foundations or improper installation, construction job-site mishaps, storage, or handling.

Accidental Glass Breakage: On our Bravo, Primo and Ipex Replacement window and patio door product lines, and on any other vinyl Products ordered with the "R5" glass package, our standard component warranty (Owner-Occupied or Commercial) will extend to accidental glass breakage. This coverage does not apply to damage attributable to acts of nature (e.g. fire, hurricane, etc.), civil disorder, building settling, structural failures of walls or foundations or improper installation, construction job-site mishaps, storage, or handling. Special glazings and ImpactGard glass are not covered by this glass breakage warranty.

How To Get Assistance

If you have a problem with your JELD-WEN Product, contact the dealer/distributor or contractor from whom you purchased your product or contact us directly:

In the United States:

Mail: JELD-WEN Customer Care
Attn: Vinyl Warranty Claims
P.O. Box 1329, Klamath Falls, OR 97601
Phone: 888-JWHelpU (888-594-3578)
Fax: 800-436-5954
Email: CustomerServiceAgents@jeld-wen.com

In Eastern Canada:

Mail: JELD-WEN Service Department
90, rue Industrielle
Saint-Appollinaire, Quebec, Canada G0S 2E0
Phone: 800-463-1930
Fax: 888-998-1599

In Western Canada:

Mail: JELD-WEN Service Department
550 Munroe Avenue
Winnipeg, Manitoba, Canada R2K 4H3
Phone: 888-945-5627
204-668-8230
Fax: 204-663-1072
Email: wpgservice@jeld-wen.com

We can respond quickly and efficiently if you provide the following: a) product identification (from the original order/invoice, spacer code, permanent label, or the window identification number found on corner of glass), b) how to contact you, c) the address where the product can be inspected, and d) a description of the apparent problem and the product (photographs are helpful).

What We Will Do

Upon receiving your notification, we will send out an acknowledgement, usually within three business days. We will investigate your claim and will begin to take appropriate action within 30 days after notification. If it is determined that the Product does not have a defect covered by the labor warranty, we may charge an inspection fee for any onsite inspection that is required or requested by you. Because manufacturing materials and techniques can change, replacement part(s) may not be an aesthetic match to the original. Replacement components/products are warranted for the balance of the original product warranty or 90 days, whichever is longer. If we determine we are unable to provide replacement parts and repair is not practicable or cannot be made timely, then we will refund the unit/component purchase price.

Continued on next page

What This Warranty Does NOT Cover

JELD-WEN is not liable for:

- Normal wear and tear; natural weathering of surfaces.
- Normal wear and tear to hardware and naturally occurring changes to hardware finishes (e.g., corrosion or tarnishing).
- Damage caused by chemicals (e.g. brick wash) or a harsh environment (e.g., salt spray or airborne pollutants).
- Product failure due to misuse or abuse; damage caused by failure to provide maintenance, by alteration or modification to the window (e.g. customer applied tints or films, paint finishes, security systems), or as a result of any cause beyond the control of JELD-WEN (e.g. fire, flood, earthquake, other acts of nature, and acts of third parties outside of our reasonable control).
- Glass breakage (except as specifically covered above).
- Slight imperfections or wavy distortions in the glass that don't impair structural integrity. Note: wavy distortions in the glass (e.g. related to laminate interlayer or heat strengthening of glass) are not considered a defect. Slight color variations in glass are not considered a defect.
- Improper installation not in conformance with JELD-WEN installation instructions (note: see www.jeld-wen.com for current installation instructions); operational problems and problems related to water and/or air infiltration/leaking as a result of improper installation or flaws in building design or construction.
- Damage or poor product performance resulting from installation into a condition that exceeds product design standards and/or certified performance specifications and/or is not in compliance with building codes.
- Damage caused by extreme artificial temperature buildup or exposure (e.g., where storm doors/windows are present).
- Product or component performance decline due to aging, inert gas dissipation, natural processes or failure to provide proper maintenance. Note: Other than inert gas loss due to seal failure, the migration of an inert gas, such as argon, is a natural process that occurs over time and is not a defect.
- Screen damage due to normal wear and tear, misuse, abuse, or insect or animal activity (except as specifically covered above).
- Condensation or damage as a result of condensation (Note: unless due to insulating glass failure, most condensation problems are related to excessive humidity levels in a structure. Contact a heating/air conditioning specialist for help).
- Labor and materials for repainting or refinishing activities or the removal or disposal of defective product(s); labor exceeding the time periods specified above.
- Incidental or consequential damage. Some states do not allow the exclusion or limitation of incidental or consequential damages, so this may not apply to you.

Important Legal Information

This Limited Warranty document sets forth our maximum liability for our products. We shall not be liable for special, indirect, consequential, or incidental damages. Your sole and exclusive remedy with respect to any and all losses or damages resulting from any cause whatsoever shall be as specified above. We make no other warranty or guarantee, either express or implied, including implied warranties of merchantability and fitness for a particular purpose to the original purchaser or to any subsequent user of the product, except as expressly contained herein. In the event state or provincial law precludes exclusion or limitation of implied warranties, the duration of any such warranties shall be no longer than, and the time and manner of presenting any claim thereon shall be the same as, that provided in the express warranty stated herein. This Limited Warranty document gives you specific legal rights, and you may have other rights that vary from state/province to state/province.

No distributor, dealer or representative of JELD-WEN has the authority to change, modify or expand this warranty. The original purchaser of this Product acknowledges that they have read this warranty, understand it and are bound by its terms and agrees to provide this warranty to the original owner of the structure into which the Product is installed.

¹ "JELD-WEN Products" shall refer to vinyl window and patio door products (except United Collection products) manufactured in the United States and/or Canada and marketed under the JELD-WEN brand name for use in the United States and/or Canada. See our separate United Collection warranty, or our Export Warranty for applicable coverage on products used outside the United States and Canada.

² "Skilled labor" refers to tasks where specialized technical knowledge, experience, methods or tools are required to properly identify, diagnose and/or correct product-related problems.

³ Fading or changing in color of the applied exterior color finish is not a defect unless it exceeds five (5) E units, calculated in accordance with ASTM D2244, paragraph 6.2. Color change shall be measured on an exposed colored surface that has been cleaned of soils, and the corresponding values measured on the original or unexposed colored surface. Fading or color changes may not be uniform if the surfaces are not equally exposed to the sun and elements. If the above ASTM standards change, the standard in effect at the time of purchase applies. As an option to replacement, we may choose to refinish the product.

ABOUT JELD-WEN

Since 1960, when JELD-WEN began with one Oregon millwork plant, we've been dedicated to crafting windows and doors that enhance the beauty and functionality of your home. Today we continue that tradition with products that are durable, energy efficient, and worry-free. Our extensive product offering is available globally through multiple distribution channels, including retail home centers, wholesale distributors and building products dealers.

We strive to conduct our business with the highest ethical standards. That includes providing our customers with superior products, establishing solid relationships in the communities where we live and work, and conserving valuable resources.

JELD-WEN's goal is to be the industry leader in environmentally responsible practices and to conduct our business in a manner that demonstrates environmental stewardship. At JELD-WEN, we believe that a healthy environment and healthy business practices go hand in hand.

The JELD-WEN website is your ultimate resource for learning about our reliable windows and doors. It has all the product information and design advice you need. Visit us at jeld-wen.com today.
